

SCORPIO: I TRANSFORM

My Home

Since March of 2020, right when the lockdowns started, forcing humanity to stay at home, Saturn, the Lord Karma, moved into your house of home and family. This is super interesting, symbolically speaking, since the Tarot card for your sign is Death, and as death struck the planet, everyone locked themselves in their home, just as your sign commanded.

Last time Saturn was in your house of home and family was 1991-1993. In the first two months of 2023, this trend continues, you are asked to take care of the last issues that need to be fixed or changed in relation to your home and family. From March 7, Saturn changes signs and elements and moves from air to water and from Aquarius to Pisces until 2026.

Since Saturn swims in a fellow water sign, his transit will be far easier for you. Last time he was in Pisces was between 1993 – 1996. This transit of Saturn will be focused on your house of love, happiness, creativity, and children. You will be encouraged to work on your relationship to your “babies” as in kids or projects.

Saturn in your house of love is asking you some fundamental questions and you are given three years to answer: Are you happy? What do you need to find happiness? Are you connected to your inner child or to children in general? Are you in love with life?

I suggest looking into the new paradigm of Positive Psychology and find some answers in that field since as a Scorpio, you appreciate research and investigation. The next three years are great to have a child, connect to kids in general, and focus your time, faith and energy in your hobbies, sports, and recreational activities. It is your right to pursue happiness!

Uranus is still traveling in your opposite sign, which he has been in since 2018. You had an awakening in all your primary relationships and contractual partnerships in the last 4 years and this is continuing until 2026. Be selective with the people you bring into your life.

Pluto is going back and forth between your house of communication, relatives, and writing (January to March and from June to February 2024), and the house of home and family (March to June). Pluto, your co-ruler is transforming your house of home and family, continuing whatever Saturn started in 2020 only making the change deeper and more powerful.

This is a good time to relocate, create a family, move in with someone or maybe you would experience a transition in career because of home or a change in dwelling due to changes in work. This Pluto transit takes place once in 250 years and will take time to unfold. There also could be a death or a loss in the family.

Now for some good news. Jupiter, the planet of expansion and growth transits in your house of work from the beginning of the year until mid-May. Jupiter can bless your professional life, relationships with coworkers, fixing your diet, and find new ways to serve people.

Fortune comes through holding steady to a healthy routine that includes some allocated time for fun and love. From Mid-May, Jupiter moves into your house of relationships and legal affairs. Justice and good karma are coming your way. In addition, Jupiter can help you find a reciprocal relationship especially since Saturn is trying to do his best to help you find what is it you need in love.
